1. Qualitative Information on Quarterly Consolidated Financial Performance

(1) Explanation of Results of Operations

In the first quarter of the fiscal year ending March 31, 2018 (hereafter, “the period under review”), the Japanese economy remained on a modest recovery trend against a backdrop of a recovery in domestic demand including consumer spending and capital expenditure. Furthermore, global markets have continued to grow moderately, though exposed to downward risk due to uncertainties that could increase depending on the U.S. government policy.

In the Japanese real estate and real estate finance industries, the real estate market is generally showing resilience particularly with demand for office space in the Tokyo metropolitan area and sales of new condominiums in the greater Osaka regions.

Under these circumstances, the Nippon Commercial Development Group (hereinafter “the Group”) during the period under review has focused on the purchase of real estate for sale with a view to strengthening our future earnings against a backdrop of increased workforce, enhanced brand recognition or other positive effects that were triggered by the start of operations of “JINUSHI Private REIT Investment Corporation (hereinafter “JINUSHI REIT”)", and expanded market of the JINUSHI business.

As a result, net sales for the period under review decreased 11.0% year on year to 3,466 million yen, operating profit increased 27.9% year on year to 224 million yen, ordinary profit decreased 4.2% year on year to 275 million yen, and profit attributable to owners of parent decreased 93.8% year on year to 183 million yen.

The significant year-on-year change in profit attributable to owners of parent can be explained by the one-time effect of making New Real Property Corporation (hereinafter “NRP”) a consolidated subsidiary during the same period of the previous fiscal year. As a result of this event, the Group reported a net gain of 2,790 million yen which consists of a gain on bargain purchase of 4,577 million yen (extraordinary income) and loss on step acquisitions of 1,787 million yen (extraordinary losses), while no such event took place during the period under review.

Results by business segment were as follows:

The Real Estate Investment Business segment reported sales of 3,259 million yen (down 5.9% year on year) with segment profit of 787 million yen (up 75.3% year on year).

The Subleasing, Leasing and Fund Fee Business segment reported sales of 97 million yen (up 23.3% year on year) with segment profit of 32 million yen (up 57.2% year on year).

The Planning and Brokerage Business segment reported neither sales nor segment profit for the period under review, while it reported sales of 138 thousand yen with segment profit of 138 thousand yen in the same period of the previous fiscal year.

The Other Businesses segment (*) reported sales of 123 million yen (down 65.9% year on year) with segment profit of 99 million yen (down 70.5% year on year).

(*) In the Other Businesses segment, we are engaged in the overseas PFI business and entertainment business (golf course management).

(2) Explanation of Financial Position

Total assets increased 3,464 million yen from the end of the previous fiscal year to 60,256 million yen at the end of the period under review. This increase was attributable mainly to an increase of 5,240 million yen in real estate for sale as a result of the progress in purchase of high-quality properties, which was partially offset by a decrease of 1,999 million yen in cash and deposits as a result of payments of income taxes and dividends.

Total liabilities increased 4,270 million yen from the end of the previous fiscal year to 41,185 million yen. This increase was attributable mainly to an increase of 5,525 million yen in long-term loans payable as a result of the

progress in purchase of real estate for sale.

Net assets decreased 806 million yen from the end of the previous fiscal year to 19,071 million yen, primarily due to booking of profit attributable to owners of parent of 183 million yen, which was more than offset by the payment of dividends of 982 million yen. Consequently, the equity ratio at the end of the period under review was 27.7%.

(3) Explanation of Consolidated Forecast and Other Forward-looking Statements

Both of net sales and profits for the period under review have progressed as planned. We forecast that net sales and profits will remain at the same level presented in “3. Consolidated Forecast for the Fiscal Year Ending March 31, 2018 (April 1, 2017 - March 31, 2018)” in Summary of Consolidated Financial Results for the Fiscal Year Ended March 31, 2017 [Japanese GAAP] that was announced on May 10, 2017. For these reasons, there are no revisions to the above consolidated forecast.

As we make projections to sell real estate for sale mainly to JINUSHI REIT in the current fiscal year, the timing of recognizing sales and profits for accounting purposes is expected to concentrate on the fourth quarter during which we sell the properties to JINUSHI REIT. Please refer to “Materials for Financial Results for the First Quarter of the Fiscal Year Ending March 31, 2018,” which is the supplementary materials for Summary of Financial Results for the First Quarter of the Fiscal Year Ending March 31, 2018 (available on our website (*)).
